

## PAS-CS20W-TRD-PRO | Pro-sound Rimless Ultra thin dome Ceiling Speaker with Dual Tweeter and Passive Radiator

### Key features

- Ultra-thin design – Sleek and space-saving
- Dual tweeters – Clear, wide sound dispersion
- Passive radiator – Deep, distortion-free bass
- High-quality audio – Balanced for music and speech
- Easy installation – Flush-mount with secure fit
- Durable build – Made with premium materials
- Versatile use – Ideal for homes, offices, and more

### Product Overview

The Macsys PAS-CS20W-TRD-PRO is a high-performance, ultra-thin ceiling speaker designed to deliver exceptional pro-sound quality in both commercial and residential environments. Featuring a rimless, modern design, it seamlessly integrates into any ceiling for a sleek, unobtrusive look. Equipped with dual tweeters, this speaker ensures wide sound dispersion and enhanced clarity, while the passive radiator technology delivers deep, distortion-free bass, creating a rich and immersive audio experience. With a 20W power output and 8Ω impedance, it offers superior performance for music and speech applications. Its quick and secure installation system makes setup effortless, making it an ideal choice for homes, offices, hotels, conference rooms, and retail spaces where high-quality sound and aesthetics matter.
