

ACS-PAVRC-TRA | Professional AV Recorder And Camera Tracking

Key features

- Provides 5 channels of 4K video signal capture and encoding.
- Supports 5 HDMI inputs and 4 HDMI outputs for flexible switching.
- 2-inch LCD display shows recording status, channel info, network, and storage.
- Compact and portable with integrated video, audio, and USB I/O interfaces.
- Supports HD and SD signals with automatic format identification.
- Simultaneous recording of video, audio, and computer screen with local preview playback.
- Records in standard MP4 format for compatibility.
- PC-based management and control system.
- Works with conference controller ACS-WLCCU for camera auto-tracking & recording.
- Live streaming over LAN or Ethernet.

Product Overview

The Macsys ACS-PAVRC-TRA is a professional AV recorder and camera tracking system designed for conference and multimedia environments. It supports up to 5-channel 4K video signal capture, recording, and live broadcasting, ensuring high-quality output for meetings, training, and events. With multiple HDMI inputs/outputs, audio interfaces, and control options, it offers seamless integration with conference controllers for auto-tracking and recording.

Technical Specification

Featues	Detail
Video Input	5 × HDMI inputs
Video Output	4 × HDMI outputs
Display	2-inch LCD (status, channel, network, storage, logo)
Audio Input	2 × Audio Line In
Audio Output	2 × Audio Line Out
USB Interface	2 × USB2.0, 1 × USB3.0, 1 × USB-OTG
Headphone Monitor	1 × 3.5mm headphone jack
Control Ports	2 × RS485, 2 × RS232
Network	1 × RJ45 Ethernet (LAN, TCP/IP protocol)
Control Protocols	RS485/RS232 (3-pin 3.8mm phoenix), TCP/IP over RJ45 (100m)
Recording Format	MP4 video file
Streaming	Supports live broadcast via LAN/Ethernet
Power Supply	DC 12V, 3A adapter
Chassis	1U Rack-mount
Dimensions	482 (L) × 270 (W) × 45 (H) mm
Weight	2 kg
Certifications	CE, RoHS compliance
