- Compact, mini-sized ABS ceiling speaker.
- Compact size with ABS Dome Body
- powerful sound 8W transformer Supports 100V/70V Line
- 2.5" full-range driver for clear sound
- high quality music and speech reproduction for PA and BGM.

Product Overview

The Macsys PAS-CS08W is an 8W mini dome ceiling speaker engineered for high-quality public address (PA) and background music (BGM) applications. Its compact and lightweight form factor makes it ideal for installations in offices, retail spaces, hotels, restaurants, and other commercial environments requiring clear and balanced audio.

Constructed with a robust ABS dome, the PAS-CS08W ensures consistent sound performance across various ceiling types such as POP, wooden, and other materials. The durable design also supports long-term reliability while maintaining a sleek and unobtrusive appearance.

Equipped with a full-range 2.5" driver, it delivers crisp highs and articulate mids for excellent voice clarity and music reproduction. This ceiling speaker operates at 8W on a 100V line and 4W on a 70V line, offering flexible power options for different installation requirements.
