

PAS-GDS30W | 30W Garden Speaker

Key features

- Outdoor speaker with 360-degree sound coverage
- High maximum SPL of 110dB
- IP66 rated for all-weather durability
- Low-frequency response down to 100Hz
- Sturdy ABS enclosure in sage green finish
- Ground fix design for secure installation

Product Overview

The PAS-GDS30W is a 30W Garden Speaker high-power speaker engineered for 360-degree sound distribution, ensuring consistent audio coverage in any installation. With a maximum output of 30W and a sensitivity of 95dB, it delivers clear and powerful sound suitable for open environments.

The frequency response extends from 100Hz to 16KHz, providing full-range audio with pronounced low-frequency depth. Its IP66 rating and ABS construction enable reliable operation in harsh weather conditions. The sage green unit features a secure ground fix design, blending durability with practical installation. A single 4.5" full-range driver handles audio reproduction for dependable performance outdoors.
