

PAS-HS15W | Outdoor Horn Loudspeaker

Key features

- Weather-resistant horn speaker for outdoor applications
- Delivers up to 15W power with included transformer
- High ingress protection rating for rugged environments
- Wide sound dispersion angle of 230 degrees
- Lightweight ABS build for durability
- Bracket mount design for easy installation

Product Overview

The PAS-HS15W is a Outdoor Horn Loudspeaker 100v@15W designed for challenging environments, featuring a waterproof construction and high IP rating to ensure reliable performance outdoors. It supports a maximum power of 15W with selectable power taps at 7.5W, 3.75W, and 7.5W for flexible installations.

The speaker offers a high sound pressure level of 95dB and a maximum output of 107dB, covering frequencies from 400Hz to 5KHz for clear audio projection. Its 230-degree wide coverage angle ensures sound disperses over a broad area. The lightweight ABS housing and bracket mounting make installation straight forward and secure. With compact dimensions and a weight of just 1.36Kg, the PAS-HS15W is suitable for various outdoor paging and alarm applications.

Technical Specification

Feature	Details
Power Handling	7.5/15W
Alternative Power Tap	3.75/7.5W
Sound Pressure Level	95dB
Maximum Output Level	107dB
Frequency Response	400Hz~5KHz
Coverage Angle	230 degree
Dimensions	222×162×232mm
Mount Type	Bracket mount
Enclosure Material	ABS
Weight	1.36Kg
Color	White
Certifications	CE, RoHS compliance
