

## PAS-PLSU20W | Unidirectional Projector Speaker

### Key features

- Weather-resistant projector (IP 55)
- Durable aluminum construction
- Equipped with 20W transformer
- 120° wide dispersion
- Suitable for wall or ceiling mounting
- Delivers 103dB max SPL with 6.5" full-range driver

### Product Overview

The PAS-PLSU20W is a Unidirectional Projector Speaker 100v@20W designed for demanding environments, featuring a durable aluminum enclosure and IP 55 rating for outdoor use. It comes with a built-in 20W transformer and supports both 10W and 20W power settings, delivering high performance at 92dB sensitivity and 103dB maximum SPL.

The speaker operates within a frequency range of 110Hz to 15KHz, ensuring clear and intelligible sound. With a wide 120-degree sound dispersion and 6.5" full-range driver, it achieves ample audio coverage for various applications. Its compact size (170×252mm) and versatile mounting options make it ideal for wall or ceiling installations. The lightweight 2.8Kg build and clean white finish further enhance its suitability for modern installations.

Technical Specification

| Feature            | Details             |
|--------------------|---------------------|
| Power at 100V      | 10/20W              |
| Power at 70V       | 5/10W               |
| Sensitivity        | 92dB                |
| Maximum output     | 103dB               |
| Frequency response | 110Hz~15KHz         |
| Dispersion angle   | 120 degree          |
| Dimensions         | Dia 170×252mm       |
| Installation type  | Wall or ceiling     |
| Housing material   | Aluminum            |
| Weight             | 2.8Kg               |
| Finish color       | White               |
| Speaker size/type  | 6.5" ×1 full range  |
| Certification      | CE, RoHS Compliance |
